### BRANDY

30% ABV

### GENERAL INFORMATION

Decano Brandy is a Spanish spirit that has evolved over time to suit the tastes of modern consumers while maintaining the traditions of classic brandy production. Made from carefully distilled white wine produced from Airén grapes, the spirit follows traditional distillation methods before being aged in American oak barrels that previously held wines from Jerez. This process contributes depth and character, resulting in a smooth and approachable brandy. With an alcohol content of 30%, Decano offers a balanced style that reflects both heritage and versatility, making it suitable for sipping or mixing in cocktails.

### TASTING NOTES

Decano Brandy shows a warm amber hue and inviting aromas of dried fruits, gentle spice, and subtle vanilla derived from oak ageing. On the palate it is smooth and rounded, with flavours of ripe fruit, soft spices, and light toasted oak. The finish is mellow and pleasant, offering a delicate warmth and lingering notes that make this brandy enjoyable neat, over ice, or as a base for classic cocktails.
