ALICANTE

13% ABV

GENERAL INFORMATION

This Landscape Wine is a true expression of its terroir, crafted from a selection of vineyards within the unique landscape of Villena. The land itself—its vines, soils, and history—is the main character in the wine’s story. Made from 100% Chardonnay, the grapes come exclusively from the slopes of “Cabezo de la Virgen”. The harvest is carefully refrigerated for 24 hours before fermentation at a controlled low temperature (15°C). The wine remains in contact with its yeast and lees until bottling, enhancing its texture and depth. It is VEGAN certified (European V-Level by the Spanish Vegetarian Union), meaning no animal products or derivatives were used during production.

TASTING NOTES

This Chardonnay displays a pale yellow color with golden highlights. The nose evokes springtime freshness, with bright citrus aromas complemented by lychee, mango, pineapple, and subtle floral notes. On the palate, high acidity gives the wine its characteristic freshness, while medium body and gentle lees contact provide an unctuous, smooth texture. A vibrant, Mediterranean wine that captures the joy and energy of spring.
