GENERAL INFORMATION

This rosé wine is produced using the traditional rosado de lágrima (bleeding) method, allowing only the finest free-run juice to shape its delicate yet expressive character. Fermentation takes place at a controlled temperature of 15°C to preserve freshness and aromatic purity. Made from a blend of Cabernet Sauvignon, Merlot, Graciano, Garnacha, and Syrah, it reflects a modern, creative, and uninhibited style, highlighting the vibrancy and elegance of contemporary rosé winemaking.

TASTING NOTES

Bright and eye-catching, it shows a vivid pink colour with purple hues. The nose is subtle yet persistent, revealing aromas of rose petals, cherries, and strawberries. On the palate, it is fresh and well-balanced, combining lively acidity with a smooth, honeyed creaminess that adds texture and charm. The finish is elegant and refreshing, delivering a youthful, expressive rosé with great aromatic finesse.
