

# Olarra Otonal Blanco

Verdejo

RIOJA

12% ABV

## GENERAL INFORMATION

This Verdejo is made from grapes carefully sourced from the highlands of the Rueda DO, where the fruit ripens perfectly while retaining its natural acidity. Harvesting is carried out selectively, ensuring only healthy, optimally ripe grapes are used. The free-run juice is fermented at a controlled temperature of 15°C to preserve the varietal character and complexity of the Verdejo aromas. After fermentation, the wine undergoes careful clarification and stabilization to ensure a clean, refined profile.

## TASTING NOTES

In the glass, the wine shows a pale straw color with steely reflections. The nose is frank and intense, offering aromas of white fruit complemented by subtle mineral notes, nettles, and hints of honey. On the palate, it is ample and flavorful on entry, yet elegant and structured, with a long, lingering acidity that provides freshness and balance, making it a sophisticated and expressive expression of the Verdejo variety.
