Merseguera

ALICANTE

12% ABV

GENERAL INFORMATION

This wine is made from Merseguera grapes sourced from vineyards planted in the 1990s. Merseguera is a native, late-ripening variety known for producing pale, aromatic white wines with moderate alcohol and naturally balanced acidity. Vinification takes place entirely in stainless steel tanks, with fermentation carried out at a strictly controlled temperature that never exceeds 16°C, preserving freshness, finesse and varietal purity.

No oak ageing is used, allowing the grape's authentic character to shine through.

TASTING NOTES

Fresh and delicate in style, this wine shows a pale, bright colour and an expressive aromatic profile marked by subtle floral and fruity notes. On the palate it is refined and well balanced, with lively acidity and a clean, elegant finish. Its freshness and finesse make it an excellent match for seafood, shellfish, fish, uncured cheeses, salads and rice dishes.
