

# Volver Paso a Paso Blanco

VOLVER

Macabeo y  
Verdejo

VdIT CASTILLA

12% ABV

## GENERAL INFORMATION

This wine is made from Macabeo and Verdejo grapes grown in the southeast of Cuenca province, near Casas de Los Pinos, at 600–700 metres above sea level. An extreme continental climate, combined with surrounding pine forests and undergrowth, creates a natural barrier that promotes vine health and enables environmentally friendly, minimal-intervention viticulture. Grapes are hand-harvested and fermented in temperature-controlled stainless steel tanks, with a strong focus on preserving freshness and natural acidity.

## TASTING NOTES

Bright greenish–yellow in colour, the wine displays delicate floral aromas alongside ripe fruit notes. The palate is fresh and lively, with crisp acidity balanced by a subtle touch of sweetness. Clean, vibrant and refreshing, it finishes with good balance and clarity.
